

1st Stamp issue 2026 from February 6 and March 2

Olympic Winter Games 2026

From February 6 to 22, 2026, the XXV Olympic Winter Games will take place in the northern Italian cities of Milan and Cortina d'Ampezzo, as well as in Val di Fiemme and Valtellina.

Philately Liechtenstein is dedicating a special stamp to this major sporting event and the participating delegation of the Liechtenstein Olympic Team. The "Olympic flame" stamp (face value CHF 1.20) shows the symbolic flame that is traditionally lit in the ruins of Olympia in Greece.

The motif is complemented by the logo of the Liechtenstein Olympic Team and the official word mark "Milano Cortina 2026." In the background rises a winter mountain range, inspired by the Tofane massif in the Dolomites near Cortina d'Ampezzo.

Carnival/Tradition

Our new self-adhesive definitive stamps are dedicated to "Fasnacht" (meaning carnival), a tradition that is actively celebrated in Liechtenstein. With these colorful stamps, we want to highlight this tradition that is typical of the region. One highlight is the international "Parade" (face value CHF 1.00) in Schaan with over 1,600 participants.

In earlier times, on Fat Thursday, young people would try to lure housewives away from their "Soup pot" (face value CHF 1.20) and steal the pot or the roast. On the other hand, the "Guggamusik" (face value CHF 1.90) is very popular. These are music groups in elaborate costumes who provide loud and eerily beautiful accompaniment to many events and organize big concerts. There are no limits to the imagination when it comes to costumes and "Masks" (face value CHF 2.50).

125 years of the Liechtenstein Historical Society

Since its foundation in 1901, the Historical Society of the Principality of Liechtenstein has made a significant contribution to researching and communicating the country's history and protecting its cultural heritage. To mark this occasion, Philately Liechtenstein is dedicating a special stamp to the society on its 125th anniversary.

The association's outstanding achievements include its involvement in the founding of the Liechtenstein National Museum, the implementation and promotion of archaeological research, and the publication of the yearbook, which has documented contributions to the history, archaeology, and culture of the country since the association was founded. The association has also laid important foundations for nature conservation and the preservation of historical monuments.

The special stamp "Historical Awareness" (face value CHF 1.20) honors this commitment and the great importance of the society for the cultural memory of the country.

EUROPA – 70 years of PostEurop

To mark the 70th anniversary of the EUROPA stamps, a special “Happy Birthday” stamp (face value CHF 1.90) is being issued. For seven decades, EUROPA stamps have symbolized the idea of cooperation and cultural exchange between European countries.

The modern, colorful design picks up on the anniversary theme and conveys joy of life, diversity, and cohesion – values that have shaped the EUROPA program since 1956 and continue to make it a unifying symbol across borders to this day.
